

The Master Hypnotist Society & Hypnosis Training Canada Presents

The Canadian Hypnosis Business Bootcamp

Are You Unknowingly Breaking The Law?

Protect Your Hypnosis Practice From New Canadian Legislation

Recent legislation in Canada is defining what therapy is, and who is qualified to offer it. Most hypnosis practitioners are breaking the law. Ontario legislative enforcement begins in the fall of 2014. Other provinces are next. Don't let them make you the example.

This bootcamp is your opportunity to learn how to:

- Operate within your legal scope of practice
- Know when to refer clients elsewhere, or get medical referrals
- Avoid client problems (the biggest reason for getting sued or charged with breaking the law)
- Handle regression safely (the riskiest hypnosis technique)
- Use safer alternatives that work as well or better than regression
- Fill your appointment book with clients
- Keep your advertising legal & maximize your returns

Don't Get Left Behind

Most hypnotists fail to reach the large numbers of people who need their help. They lack the advanced training, communication and business skills to attract clients and help them improve their lives for real. This problem is now compounded by the fact that the Canadian legislative climate is making hypnotists vulnerable to attack. You can be a victim of this, or take the challenging training you need to build the career of your dreams.

Your Opportunity Knocks

The Master Hypnotist Society method has a 30 year track record of training the largest number of successful hypnotists in the entire history of the hypnosis profession. Here is your real opportunity to join the group of successful hypnotists, and build a career you can truly be proud of.
